EDUCATION

Examination	Degree/Certification	Institute	Year	CGPA / %
Graduation	B.Tech (CSE)	Eshan College of Engineering (AKTU), Uttar Pradesh	2024 – 2028	8.73/10.0

SCHOLASTIC ACHIEVEMENTS

- CGPA 8.73/10.0 in B.Tech. Computer Science Engineering.
- Selected for a **Summer Research Internship at IIT Hyderabad** in Biomedical Engineering.
- Trainer for a Government of Madhya Pradesh teacher-training program** on AI Tools for Smart Learning, training **500+ government teachers**.

WORK EXPERIENCE

Software Development Intern <i>Apex Software Pvt. Ltd.</i>	<i>Sept 2025 – Oct 2025</i> <i>Remote</i>
- Developed responsive web applications using React, Node.js, and MongoDB, improving application load time by 25%. - Collaborated on AI-based automation tools with a team of 5 developers, reducing manual tasks by 30%.	

RESEARCH EXPERIENCE

Research Intern – AI & Medical Imaging <i>Indian Institute of Technology Hyderabad</i>	<i>May 2026 – Jul 2026</i> <i>Hyderabad, India</i>
- Worked on deep learning and medical image segmentation using Python, PyTorch, and OpenCV for biomedical imaging applications. - Explored SAM and transformer-based computer vision models for healthcare datasets; contributed to cervical-cell annotation, detection, segmentation, classification, and system integration.	

POSITION OF RESPONSIBILITY

Google Student Ambassador <i>Google India</i>	<i>Sept 2025 – Present</i> <i>Remote</i>
- Selected as 1 of 300+ ambassadors representing Google’s developer initiatives across India. - Conducted 15+ workshops reaching 500+ students; increased program participation by 40%.	
Founder & Community Organizer <i>Beta Cohort Community</i>	<i>Mar 2025 – Present</i> <i>Agra, India</i>
- Founded a student-led tech community with 500+ members across 10+ colleges. - Conducted 20+ workshops on web development, AI/ML, and open-source contribution, training 300+ students.	
Campus Ambassador & Open Source Contributor <i>GirlScript Summer of Code (GSSoC '25)</i>	<i>Aug 2025 – Oct 2025</i> <i>Remote</i>
- Promoted open-source culture on campus, onboarding 100+ students to GitHub repositories. - Contributed 50+ pull requests across multiple projects, improving documentation and fixing critical bugs. - Mentored 25+ first-time contributors through code reviews and best practices.	
AI & Digital Marketing Trainer <i>Government Teacher Training Program, Madhya Pradesh</i>	<i>Sep 2025 – Dec 2025</i> <i>India</i>
- Trained 500+ government teachers in AI tools, digital technologies, and Digital Marketing through practical sessions. - Trainer in the “Empowering Teachers with AI Tools for Smart Learning” program jointly conducted by Seaborn Technologies, Emagic Solutions, EdCIL, New Delhi, and the Department of School Education, Government of Madhya Pradesh under EQIP.

KEY PROJECTS

CervixAI – Cervical Cytology Analysis
<i>Python, PyTorch, GroundingDINO, SAM 2.1, Cellpose, Flask</i> - Built an end-to-end deep learning pipeline for cervical-cell localization, cytoplasm/nucleus segmentation, and 5-class cytology classification from Pap-smear imagery. - Integrated GroundingDINO, SAM 2.1, Cellpose/watershed, and EfficientNet for detection, segmentation, nuclei analysis, and classification. - Developed a Flask interface with SVG overlays, per-cell probabilities, N/C ratio, morphology metrics, JSON/CSV export, and evaluation using Dice, IoU, Hausdorff distance, SSIM, and PSNR.
NirogAI – Multilingual AI Health Assistant
<i>Python, Flask, Hugging Face, Meta Llama 3, Speech, SQLite</i> - Developed a multilingual AI health assistant supporting English, Hindi, Tamil, and other Indian languages with text and voice interaction. - Implemented Flask REST APIs, symptom categorization, category-specific prompting, and Meta Llama 3 inference. - Added speech-to-text/text-to-speech and SQLite/SQLAlchemy persistence for user history and feedback.
Bharat Vyapaar AI – MSME Business Assistant
<i>React, TypeScript, Supabase, Tailwind CSS, Recharts</i> - Built an AI-enabled business dashboard for Indian MSMEs covering sales forecasting, inventory, smart pricing, WhatsApp marketing, advertising, website management, and AI assistance. - Implemented responsive React/TypeScript interfaces, routing, forms and validation, data fetching, charts, and Supabase-backed services.
AI Rail Disruption Copilot – Decision Support
<i>React, TypeScript, Supabase, Tailwind CSS, Vercel</i> - Developed a web-based decision-support application for railway disruption scenarios including delays, route constraints, and operational conditions. - Built a responsive operational dashboard with React components, structured scenario handling, data visualization, Supabase integration, testing support, and Vercel deployment.
Smart Slot Finder – Explainable Scheduling
<i>React, TypeScript, Tailwind CSS, Vitest, Playwright</i> - Built a deterministic scheduling engine that parses natural-language availability, normalizes day/time ranges, computes multi-participant overlaps, detects conflicts, and ranks the strongest slots. - Added explainable recommendations based on participant coverage and overlap duration, with Vitest, Testing Library, and Playwright testing support.

SKILLS

Languages: Python, JavaScript, TypeScript, SQL, HTML5, CSS3, C++
AI/ML: Machine Learning, Deep Learning, Computer Vision, Medical Image Analysis, Image Segmentation, Transfer Learning, Model Evaluation, Transformers, Foundation Vision Models
Frameworks/Libraries: PyTorch, TensorFlow, OpenCV, Scikit-learn, NumPy, Pandas, Hugging Face, GroundingDINO, SAM/SAM 2.1, MedSAM, Cellpose, EfficientNet, React, Flask, Node.js
Web/Backend: REST APIs, Vite, Tailwind CSS, React Router, Supabase
Databases/Cloud: MongoDB, SQLite, SQLAlchemy, Firebase, MySQL, Render, Vercel
Tools: Git, GitHub, Linux, VS Code, SSH, Postman, Figma, Vitest, Testing Library, Playwright

CERTIFICATIONS & RECOGNITION

- IIT Hyderabad Summer Research Internship Certificate** – Biomedical Engineering; May 15 – Jul 15, 2026. Project: Foundation Model-Based Annotation, Detection, Segmentation, and Classification of Cervical Cells for Pap Smear Cytology.
- Trainer Certificate** – “Empowering Teachers with AI Tools for Smart Learning”; Seaborn Technologies, Emagic Solutions, EdCIL, New Delhi, and Department of School Education, Government of Madhya Pradesh under EQIP.
- Certificate of Appreciation** – 4th Summer School on Machine Learning for Electron Microscopy, University of Tennessee, Knoxville; Jun 22 – 26, 2026.
- IAENG Membership** – International Association of Engineers; member since Dec 17, 2025.
- Nestlé E-learning 2026 | Resilience** – Certificate of Completion, 2026.
